

25,400 lives lost

each year from smoking-related illness

AND IT STARTS IN OUR STORES.

25,400 lives lost

each year from smoking-related illness

AND IT STARTS IN OUR STORES.

Prescription FOR CHANGE

Now is the time to end tobacco sales at pharmacies in New York State. Here's why:

- "Pharmacies are the face of neighborhood healthcare. Americans rely on their neighborhood pharmacies and pharmacists as easily accessible and trusted points of care."¹
- It is a conflict of interest for pharmacies, providers of health care, to also profit from the sale of harmful products such as tobacco, known to cause cancer, heart and pulmonary diseases.²
- Tobacco products are highly addictive and responsible for the preventable death of 25,400 people in New York each year.³
